

CAUTION

2 persons recommended for this assembly. A drill is required.

Wall anchor is not included due to varying wall surfaces requiring specific wall anchors. Seek a professional if you do not know what type of wall anchor you need or you cannot effectively lift the mirror.

This mirror was designed to hang by the wire. DO NOT use any other method to hang mirror or it may not be secure.

Step 1: Find a location on wall for the center of the mirror and mark it.

Step 2: Drill pilot hole for wall anchor at marked point.

Step 3: Insert or drill wall anchor into pilot hole.

Step 3: Carefully hang mirror on the wall anchor with the metal wire.
